CHORE TEAM COMPETITION - Teams must perform at a controlled walk or trot.

1. Teamster comes to gate and drapes or drops lines, opens gate, drives through, and closes gate. Assistant may stand behind the team for safety purposes as the gate is worked. If the assistant has to pick up the lines for a team that won't whoa, points for that obstacle will be lost.
2. Timing begins when team crosses chalk line at the gate.
3. Teamster drives into keyhole to a I wagon, hooks team to wagon unassisted. Assistant must wait outside the keyhole until team is hooked. Once hooked, teamster turns wagon 180 degrees without touching the chalk line and drives out of keyhole. When hooking the wagon, teamster and team must stay inside the chalk mark outlining the keyhole.
4. Team and wagon move into the corner alley obstacle. Rails are situated to allow only enough room for team and wagon to make it through the maneuver.
5. Team and wagon execute a figure eight around cones.
6. Team and wagon then move to the parallel Parking area.
7. Team backs wagon to the dock
8. Team drives back into the keyhole and parks wagon for next contestant. Helper must leave the keyhole while the teamster unhooks wagon and exits the keyhole. Timing stops when wagon tongue touches the ground. Team must successfully exit keyhole to receive total points. Event management will ensure the wagon is returned to a universal starting point for next team.
9. Team exits arena at a controlled walk.
